

## Overview

This is the official Repo for creating, sharing and using the iPhone Winterboard Theme "Minimal HD". It now includes 160+ icons which have been graciously crafted by the community. In addition to that: lock screen skin, popup dialogs, SMS bubbles and a lot of separate options for additional customization.

Either download from Cydia (search for 'Minimal HD'), or [click here](#).

## Contributors

Our contributors are who makes Minimal HD on of the best theme for iPhone. Please take a moment to [look over our list of contributors](#).

Make sure to show your appreciation to everyone on this list!

**JOIN THE TEAM!** Just write an email to philippgrundhuber@gmail.com and you will get acces to the Github!

## How You Can Help Make Minimal HD More Awesome

Whether it's requests, contributions or bugs, thanks to everyone who helps make Minimal HD one of the best themes on the iPhone!

- Submitting an Icon Request
- Contributing an Icon
- Submit a Bug
- JOIN THE TEAM Just write an email to philippgrundhuber@gmail.com and you will get acces to the Github!

## Icon Requests

### 1. Way

Open an Issue with your Iconrequest

### 2. Way

Download "IconThief" from Cydia and set following options:

Attach ZIP to Email **ON**

Save In Bundle Folders **ON**

Revert Optimized Icons **ON**

Collect Artwork Images **OFF**

Then Press "Start!" and when its done email (philippgrundhuber@gmail.com) me your package. **Please add all Application Names you would like to get themed!**

## Icon Contributions

Minimal HD is a community effort, we can only continue being this succesful with your help!

### 1. Way

Email us your icon set (only in bundle Folders please): philippgrundhuber@gmail.com

### 2. Way

**Join the team and get access to the github Folders! Just email me and we will thankfully welcome you!**

## Guidelines

In order to create a Minimal HD icon you will need Photoshop as well as the **template** [here](#).

Please Watch the following Guidelines:

1. Always make clear and as minimalistic as possible icons
2. Please Always use the colours given and make your "picture" white!
3. Do not (or only if it *really is necessary*) make your white "picture" of the icon bigger than the blue lines!

## Attaching Icons

Attach the icon to the issue by dragging and dropping the icon file directly into the issue.

Alternatively you can click the 'choose an image' link and select it from your hard drive.

Look at the comment on [this issue](#) for a proper example of a well done icon fulfillment.

## Submitting a Bug

Sometimes app makers change the icon names that they use and doing so breaks Minimal HD. Sometimes Apple changes the names of images they use within iOS and doing so breaks Minimal HD. If you find a problem like this or anything else let us know what has changed there. If you cannot find an existing issue, *please open one*. It's really easy!
